KOLAWOLE OLUBUKOLA EMMANUEL.

United Kingdom | emmakola20@gmail.com | 07979129028, 07876725928 | LinkedIn | Portfolio

Data-driven and analytically rigorous professional with extensive experience in business intelligence, case management analytics, and renewable energy research. Proficient in SQL, Power BI, Tableau, Excel, and statistical modeling, with a proven ability to develop interactive dashboards, automate reporting workflows, optimize query performance, and enhance data integrity for strategic decision-making. Experienced in predictive modeling, root cause analysis, and large-scale dataset evaluation to improve forecasting accuracy, operational efficiency, and policy compliance. Strong background in managing high-volume caseload data within regulated government frameworks, ensuring accuracy, confidentiality, and procedural adherence.

TECHNICAL SKILLS

- **Programming & Query Languages: SQL, Excel**
- **Data Visualization & BI Tools: Power BI, Tableau, Excel**
- **Database Management: Microsoft SQL Server, MySQL, PostgreSQL**
- **Cloud & Collaboration Tools: Microsoft Windows Server, Google Suite, Microsoft Office Suite, Slack, Zoom, Team Viewer**

CORE COMPETENCIES

- Data Analysis
- Data Visualisation
- Data Modelling
- Business Intelligence
- Predictive Modeling
- Dashboard Creation
- A/B Testing & Experimentation
- Statistical Computing Method
- Time Series Analysis
- ETL (Extract, Transform, Load)
- Data Governance
- Data Queries & Interpretation
- Performance Metrics
- Storytelling
- Problem-Solving & Critical Thinking

PROFESSIONAL EXPERIENCE

Data Analyst
Amdari Inc. UK **December 2024 - Present**

- Developed and maintained interactive dashboards in Tableau and Power BI, enabling stakeholders to track key business metrics in real time, reducing manual reporting efforts by 40% and enhancing data-driven decision-making.
- Conducted root cause analysis on data discrepancies using SQL and Excel, identifying and resolving 25% of inconsistencies, thereby improving data integrity and ensuring accuracy in business intelligence reports.
- Optimized SQL query performance, reducing data retrieval time by 30%, which significantly enhanced operational efficiency and accelerated analytics workflows.
- Automated reporting processes by designing Power BI workflows, reducing manual data extraction time by 50% and ensuring consistency across weekly and monthly reports.
- Implemented advanced data-cleaning techniques using SQL and Excel, eliminating redundant data entries and enhancing the quality of datasets for analytics and forecasting.
- Developed predictive models using historical business trends, improving demand forecasting accuracy by 15%, enabling more precise resource allocation and inventory planning.
- Presented analytical findings to cross-functional teams and senior management, translating complex datasets into actionable business strategies that informed critical decision-making.

Work Coach / Case Manager
Department for Work and Pensions – West Derby, Liverpool **2025 – Present**

- Managed a caseload of 100+ clients, delivering structured career planning and problem-solving support, resulting in 65 clients achieving employment or training outcomes within targeted timelines.
- Conducted structured progress reviews using analytical assessment techniques while ensuring full compliance with government policies and procedural standards.
- Investigated and resolved benefit claim discrepancies through detailed data analysis and document verification, achieving a 95% accuracy rate in error resolution.
- Communicated complex policy and procedural information clearly to diverse claimants, leading to 98% clarity in next-step understanding and a 45% improvement in case resolution rates.
- Collaborated with multidisciplinary teams to deliver high-quality, customer-focused services.
- Maintained strict adherence to data protection, safeguarding, and confidentiality standards in all client interactions.

Renewable Energy Research Assistant (Practical & Field Projects)
University of Hull – Hull, UK **2023 – 2024**

- Evaluated the seasonal performance of air source heat pumps in residential buildings as part of a collaborative research project, assessing operational efficiency under varying climatic conditions.
- Installed and configured smart meters, temperature sensors, and monitoring equipment to capture real-time system performance and indoor/outdoor environmental data.
- Collected, cleaned, and analysed large datasets using Excel and RStudio, calculating Coefficient of Performance (COP), energy consumption trends, and overall system efficiency.
- Applied principles of thermodynamics, fluid mechanics, and heat transfer to interpret system behaviour and validate performance outcomes.
- Assisted with the installation, commissioning, and testing of renewable energy systems, ensuring compliance with technical and safety standards.
- Conducted troubleshooting and performance diagnostics to identify inefficiencies and recommend optimisation strategies.

Creative Designer & Retoucher
TY Bello Photography | Ikoyi, Lagos, Nigeria **2021 – 2023**

- Retouched, color-corrected, and enhanced high-resolution images for print, digital, and social media publications, ensuring professional quality and client satisfaction.
- Designed marketing and promotional materials, including brochures, posters, flyers, social media graphics, and digital content to support campaigns and brand initiatives.
- Developed brand-consistent layouts, typography, and visual assets using Adobe Creative Suite (Photoshop, Illustrator, InDesign).
- Created custom illustrations, graphics, and digital assets to enrich storytelling and engage target audiences.
- Collaborated closely with photographers, marketing teams, and clients to interpret creative briefs and deliver tailored visual solutions aligned with project objectives.

Science Laboratory Instructor & Technical Officer
Kingston College | Ibadan, Nigeria **2018 – 2021**

- Delivered practical laboratory sessions, guiding students in the safe and accurate use of electrical, mechanical, and scientific instruments.
- Installed, calibrated, and maintained laboratory equipment, ensuring compliance with safety standards and operational reliability.
- Diagnosed, troubleshot, and repaired technical faults in lab instruments, reducing downtime and supporting continuous learning.
- Maintained detailed records of equipment usage, maintenance schedules, and laboratory incidents to support compliance and auditing requirements.

EDUCATION

M.Sc. Renewable Energy (Distinction) - University of Hull, England 2024
M.Sc. Materials Science (Distinction) - Obafemi Awolowo University 2018
B.Sc. Engineering Physics (Second Class Upper) - Obafemi Awolowo University

CERTIFICATION

Data Analytics - 10Alytics
Google Data Analytics - Google
